

RUSSIA residents final comments to Nicotine Users Survey 2020

Do you have any additional remarks?

3 comments from Russia residents:

- NO

- Vaping saves lives. Smoking kills. Vaping is the future.

- I hope that lawmakers will finally listen to common sense and reason and stop listening to the obviously wild and not sold to any criticism statements of wilds and organizations interested only in their own profits, and not in people's health. I live in Russia, unfortunately, they put the stupidity of European officials as an example, and your bans and restrictions become ours.
