- The EU ban on snus seems to be excessive. Legalization would in my opinion help a lot of people to stop smoking.

- Vapeo es un puente dejar tabaco .

- Banning flavors will only lead to people turning to black market or going back to die from cigarettes.

- If e-liquid prices would go up and restrictions would be stronger, people would start to look for black market which is not very good solution for vapers.

- No

- Only, vaping saved my life

- Don't overtax or ban Vaping!

- vaping helped me and many others I know quit smoking for good, brings me joy and helped me make new friends. please avoid limiting its availability, rather help it switch more smokers to the less harmful side. Thank you.

- this was so looong and i am skeptical :))

- increase bottles from 10ml, 10ml for nicotine liquids doesn't make sense at all increase nicotine level up to 36mg

- no.
