- TPD is fine as it is, except the 10ml bottles.

- Svapo da più di 2 anni e ho smesso di usare le sigarette tradizionali, inoltre in 2 anni sono passato da liquidi con nicotina 14 a liquidi con nicotina 3%. Considerate questo aspetto. Sto meglio fisicamente da prove e analisi di laboratorio.

- no

- ДДм.

- I just wanted to point out that the flavors are one of the reasons many people vape, if they are not here many people will maybe stop vaping and go back to smoking which will lead to very big health problems for the EU population.

- VAPING SAVES LIVES

- Not sure.

- Smokers should try vaping and stop smoking. Information should be available publicly. Research should be made.
